```
# My first R script  
x<-1:50  
plot(x, sin(x))
```

```
plot(x, sin(x), typ="l", col="blue", lwd=3, xlab="Silly x axis", ylab = "Sensible y axis")
```

```
x<-seq(from = 1, to = 50, by=0.05)
plot(x, sin(x), typ="l", col="blue", lwd=3, xlab="Silly x axis", ylab = "Sensible y axis")
```
